TERRY F. RIGDON, D.D.S., F.A.A.I.D., F.M.I.I.
Implant, Esthetic and Restorative Dentistry

Dear Patient:

Dental Insurance is one of the most beneficial and misunderstood factors in dental treatment today. This explanation will attempt to clear up common misconceptions about dental insurance.

Dental insurance is a contract between the employer and the patient. It has NO CONNECTION at all to the provider of dental treatment. The extent of coverage varies greatly from company to company and sometimes even within a company. It has absolutely nothing to do with the level of service provided by the dentist and the fees charged for the services.

An often misunderstood term used by insurance companies is "UCR". This is an arbitrary fee ceiling at which the insurance company will stop reimbursement. After the ceiling, coverage for the particular producer will cease. Again, this has nothing to do with the fee charged, but the level of coverage negotiated by you employer.

We will make every effort to assist you with your insurance coverage. Although it is not required, we will prepare and submit your insurance claim at no cost as a courtesy to our patients. We will also provide an estimate that will show expected insurance reimbursement and patient share for every procedure. The patient share will be due at the time of treatment, unless prior arrangements have been made. Should our estimate of payment be too high, a refund will be issued. Likewise, if the estimate of payment is too low, the remainder will be due at that time. Should no insurance payment be made within ninety days of a submitted claim, the fee will become the responsibility of the patient.

I have read and understand the above statement.
